

EXPERTO CREDITE

"Trust one who has proved it." Writing more than 2000 years ago, Virgil, one of the most influential of Roman authors, hit upon one of the early secrets to commercial success. It's as valid today as it was then, probably more so.

You need to surround yourself with people who have proven themselves up to the task of contributing to your success. We've had the good fortune of working with a host of Microsoft partners in helping them put in place next generation growth strategies. A sort of "Fellowship of Those Who Have Proved It," who've been gracious enough to offer a word or two about us:

Greg Frankenfield, CEO, Magenic Technologies, Minneapolis, MN. "RRCG has been a valuable growth partner with us for a number of years, and we've prospered by their counsel. Among other things, RRCG helped us roll out a Development Center offering, which has helped to improve our bottom line."

Ken Brower, President & COO, TiBA Solutions, Greenville, S.C., "We met Mike and his team last year, and we're glad we did. Their considerable experience in the small-to-midsize market helped us clarify and strengthen our growth strategy with solid recommendations we're presently implementing."

Andrew Steane, Director of Marketing & Alliances, imason inc., (and former Microsoft corporate account manager), Toronto, Ontario, Canada. "After meeting RRCG at the 2006 WPC, we engaged their services to help us narrow our focus and execute our strategy. RRCG is unique in the space and understands Microsoft partners and their issues of growing a profitable company. We're excited about where we're heading."

Rick Kuula, President, Solutia Consulting Inc., Minneapolis, MN, "RRCG helped us develop a

comprehensive strategy for geographic and vertical market penetration. We're putting this plan into action with much enthusiasm from our team, and we're seeing improvements in our results. I would strongly recommend RRCG."

Robert Church, CEO, Aria Solutions, Calgary, Alberta, Canada, "We've worked with RRCG for several years because their recommendations helped us dramatically accelerate our growth and profit. They're now helping us expand our services into new lines of business."

As an IT services growth consultancy, we specialize in helping small-to-midsize IT service executives with a hearty appetite for growth. Our expertise includes best practices implementation, geographic expansion, new service line development, mergers and acquisitions channel marketing, sales planning and optimization, vertical expansion, among others.
